Leader Murphy told the reporters how he had stopped off at Buffalo and had seen Attorney-General-elect Cunneen. He said Tammany was to get two appointments from the Attorney-General's office, one being a deputy at \$4,000 a year. When Mr. Murphy was asked whom he would recommend for these places he said: "I haven't the slightest idea. The ap-

plications I have received are in the desk. I haven't talked with any one here about Mr. Murphy said he hadn't taken any hand in the Pennsylvania tunnel question and had not asked the Tammany Alder-

change. I have not had a conference with any one about the matter, but I think Senator Grady ought to be satisfactory to the party."
"Didn't you talk about Senator McCarren

"I have seen Mr. McLaughlin only once since the campaign." said Mr. Murphy. "That was in the back room at the auction room and half a dozen people were there. It was not a secret meeting. It was as open as this talk here. I made no secret of my visit," he continued with a smile. "In fact, I walked across the Bridge so that any one might see me going there. We did not settle anything, as the newspapers had us doing. It was just a friendly call."

Mr. Murphy was asked if Senator Hill would get the Democratic complimentary yote for United States Senator in the joint ballot when Senator Platt will be rejected.

"I don't know," said he, "The question has not been touched on by the organ i-zation."

Borough President Cantor's interview, in which he said that Mr. Murphy had nothing to do with the big vote for Coler in Greater New York, was called to Mr. Murphy's attention and he said: "I don't care anything about that. Theorganization gets credit for the vote, anyway."

Leader Murphy was the hero of the annual Thanksgiving eve entertainment given by the Anawanda Club last night at its clubhouse, Twentieth street and Second avenue. A variety entertainment was given A variety entertainment was given and there was a spread. So many members of the club and Tammany leaders attended

CIGAR MEN AFTER AN OCTOPUS. GAMBLERS TO TRY THE COURT 250 Retailers Organize to Fight the New United Cigar Stores Co.

About two hundred and fifty tobacco dealers who insist that the United Cigar Stores Company, which is opening retail cigar stores all over town, is controlled by the American Tobacco Company and is "an attempt by the Tobacco Trust to wipe out the small dealer," had a meeting in Maennerchor Hall, in East Fifty-sixth street on Tuesday night at which they formed an association for their own protection. small one, as there are between 15,000 and

It was explained, however, that while every retail dealer has the same view of the United Cigar Stores Company, only the small number represented at the meeting believe that any good can come from any such antagonistic organization. So far, most of the large independent retailers have refused to have anything to do with the scheme, believing that any plan for a mutual sacrifice in prices or anything else as a method of fighting the "trust stores," as they are called, would not be adhered

The plan of the association is said to include the formation of a stock company the issuing of coupons for gifts similar o those issued at the company's stores, and an appeal to labor unions and all per-sons opposed to trusts and monopolies to buy the organized retailers' goods instead of patronizing the stores of the so-called

MAY BE A LEGAL TEST OF THE SCHMITTBERGER BLOCKADE.

Wescott and Jolly See an Eminent Lawyer -No Gambling Paraphernalia in the Carefully Guarded House-And It's Possible to Get In, Despite the Police.

No casualties were reported yesterday in the war between Capt. Schmittberger of the West Forty-seventh street police station and Deacon James Wescott and Col. Thomas Jolly, who, according to Schmittberger, have been trying to run a gambling house in West Forty-fourth street. However, there was abundant evidence that peace had not been declared. Four policemen stood at the entrance of the house all day vesterday. The men were relieved every few hours and at 8 o'clock last evening a fresh squad took up the watch. Not a soul tried to get in during the twenty-

four hours the watchers said. Col. Jolly was at his home on the upper west side and Deacon Wescott was at the Hotel Cadillac, where he took rooms on Monday, when Schmittberger announced that not even the man who rents the house could go inside.

Wescott and Jolly went downtown about noon and saw one of the best-known lawyers n this country, a man who has been menioned more than once as a possible Justice of the United States Supreme Court. They had a long talk with the lawyer, but neither would say what it was about. That some legal action is planned is not doubted.

There was more conferring at the Cadillac last evening. Sporting men in couples and pairs would walk into the hotel office, talk in low tones for a while and walk out. When any one of these men was asked what was doing he smiled and said, "Nothing."

Capt. Schmittberger heard that something was in the wind, but what it was he coundn't exactly make out.

"It don't make any difference what those follows in the wind."

"It don't make any difference what those fellows are doing," he said finally. "I'll get into that house and I'll have those fine machines, or know the reason why."

President Sheehan of the Amalgamated Association of Street Railway Employees of Albany was present at the meeting and assured the Schenectady Trades Assembly of the hearty support of the Albany organization.

When President Jackson called for a vote on the boycott question the delegates voted to lift it by 101 to 48. It was explained by the radicals that the boycott was taken off pecause the press of the entire country has raised such a howl over the expulsion of William Potter from the painters' union that public sentiment was turned against the boycott, and, said one of the members of the assembly, "in the face of its unpopularity we could not do less than declare

The boycott was declared one week ago last Monday. It has been disregarded from the very first by the great mass of union men in town.
